GAZEBOS & ACCESSORIES 2015

Live the Dream with a Gazebo from M&M Timber

Whether you dream of simply relaxing with a well earned glass of wine, entertaining the tribe in extravagant surroundings, or are hosting that never to be forgotten al-fresco party. A thatched or timber roofed Gazebo from M&M Timber will turn your dreams into reality - it just couldn't be easier.

M&M Timber manufacture an extensive range of Gazebos from carefully selected timber from well managed sustainable forests, to suit every size and style of garden at our manufacturing centre located in the heart of rural Worcestershire.

Specifically designed accessories to fit our range of Gazebos are available to further enhance your comfort and privacy. Available in a choice of terracotta or green.

Unless stated all M&M Timber Gazebos come with a deck base, solid and balustrade infill panels.

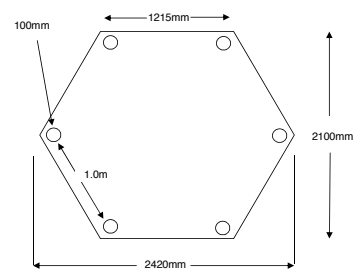

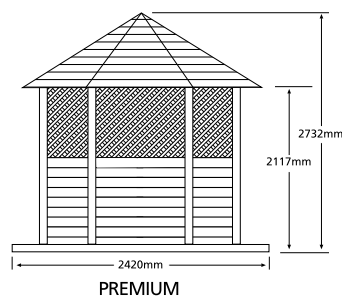

Delivery and assembly on to level pre-prepared base is also included in the price.

With all the benefits of a thatched or timber roofed Gazebo from M&M Timber - Dreams really can come true!

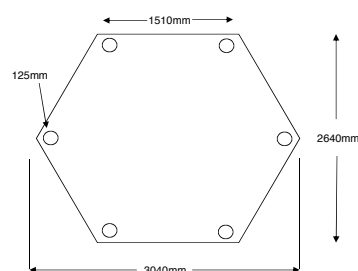

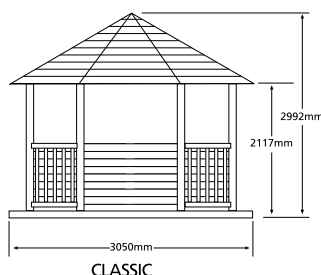

All M&M Timber's gazebos are made of natural materials. They are designed to provide a shower proof environment. It is important to appreciate that in severe weather conditions there may be a chance of water ingress. We recommend with the thatched range that you invest in a roof liner to improve water protection. A full set of gazebo accessories can be found on the inside back page of this brochure.

Premium Gazebo - 2.4m

M&M Timber Gazebos

- Manufactured in the UK
- British Timber
- The timber used in the manufacture of the gazebos is sourced from FSC® certified, well managed forests and other controlled sources
- Kiln Dried and MicroPro pressure treated for an extended life
- All sizes shown are approximate
- As a natural product wood may be subject to some splitting during the drying process, splitting does not effect the integral strength of the timber.
- Includes timber deck base
- Heavy duty hard wearing textile accessories
- Choice of South African Thatched Reed or timber roof
