

# PARASOLS - HARDWOOD

3 YEAR WARRANTY

Our hardwood parasols are operated using a pulley & locking pin system. Simply pull the rope down to raise parasol to desired height and place brass pin into one of the three holes to secure into place. To lower parasol, remove locking pin, let the rope pass through hands until the canopy is folding and upright.

## PRODUCT INFORMATION

Available in 3 sizes; 2.7m, 3.0m round and 2m x 3m rectangular, in a choice of 3 colours, ecru, taupe and green. The pole diameters are 35mm.

The fabric is made of 270gsm spun poly (an oil based product similar to polyester). They are Teflon coated and PU treated.

## MAINTENANCE

Canopies are removable and machine washable at 30°C. Spun poly is fade, rot, shrink, crumple & stain resistant. All hardwood parasols come with a night cover which is 160gsm polyester. Canopies are available to buy separately.

We advise against leaving parasols up in windy conditions as the frame or fabric could be damaged. Unattended parasols should not be left open. Any damage caused by neglect is not covered by warranty.

It is essential that the correct base is used to stabilise the parasol. Parasols should not be used for sun protection.
