

SHERWOOD COLLECTION

3 YEAR WARRANTY

Our Sherwood range is a modern twist on a traditional style of furniture. The collection includes many of our most popular designs, so whether you are purchasing a bench or a dining set you will find something to suit your taste and budget.

MAINTENANCE

Made from Acacia timber the textured brown finish is the result of 3 coats of paint. Sherwood can be cleaned using warm soapy water and a sponge.

We recommend applying timber sealer straight after purchase to avoid fading and to help retain the colour of the wood. Alternatively, leave it to weather over a period of time. After the 1st season if you want to re-treat your furniture, we advise cleaning down with our Teak cleaner with a hand brush (do not sand down as you will lose the textured appearance) then apply either timber treatment plus or timber sealer. Alternatively it can be repainted with any outdoor paint.

Comes with a 3 year warranty and 10 year durability.
