STAGE 4

YOUR PRODUCT IS NOW COMPLETE

Timber is a unique and naturally beautiful material with its own characteristics which makes each piece distinctive.

At Zest we are committed to the environment and we are very proud to be a Forest Stewardship® Certified company. (FSC® C114990) and all timber used has been ethically sourced from responsibly managed forests.

Splits & cracks are to be expected in timber and they naturally appear in the grain due to changing temperatures and humidity levels. They are not a cause for concern as they will not affect the strength or durability of the product.

If a particular split or crack becomes visible and is of concern simply use the "2p Coin Test" as a guide. There is no need for concern if the coin will not fit. If the coin does fit in the split, potentially there may be an issue. In this case, in order for customer services to investigate the matter fully, it should be reported in writing to your retailer, along with a clear photograph showing the 2p coin in place.

"Here at Zest we take any complaint very seriously and each one is investigated individually and judged specifically using established guidelines to determine if it is a justified complaint and whether a replacement part is required."

Customer Service Dept.

Knots are a natural characteristic of timber however a dead knot may be an issue which can be reported in writing to your retailer and must include photographic evidence to support the query.

Sun Bleaching (from packaging) is not a cause for concern and the product will fade over time when items are placed outdoors.

This will not affect the durability of the product.
