FABRIC OPTIONS

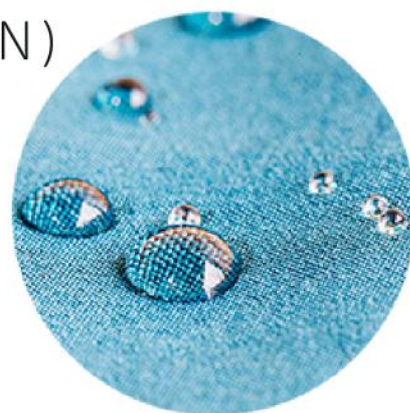

STANDARD FABRIC

Barlow Tyrie's standard fabric and cushions are made from Sunbrella® fabric, which is hard-wearing, durable and 100% solution dyed acrylic fibre that is colour-fast in sunlight.

These cushions have a water-repellent finish, but are not fully waterproof, so should be stored away during heavy rain.

RAIN FABRIC (UPGRADE OPTION)

Additionally, cushion fabric can be upgraded from the standard Sunbrella® to Sunbrella Rain®, which has an extra barrier finish that is waterproof, and better suited for long-term use outdoors.

Upgrading from standard Sunbrella® to Sunbrella Rain® fabric can be completed using the upgrade option on our individual product pages.

Alternatively, contact us for a quote.
