

Orion

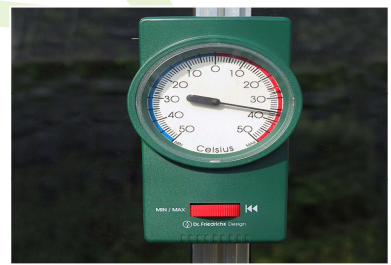

Orion 5000 with horticultural glass

Optional greenhouse base

Optional 2-tier staging

Optional max/min thermometer

A quality greenhouse in a very attractive design. Available in 2 sizes, each 1.93m (6'4") wide, the Orion has attractive curved eaves for optimum growing height. The two models are 1.95m (6'5") and 2.57m (8'5") in length, have a smooth action single sliding door, 1 roof vent and the Vitavia integral standard gutters.

As well as precisely cut glass, the Orion is supplied with u/v protected acrylic panels for the curved eave sections.

Like all VITAVIA greenhouses, the Orion is constructed from anodised aluminium, ensuring clean handling and a pristine finish. Frames are available in natural silver colour or powder-coated green and come with fully illustrated Assembly Instructions.

Specifications

Model	Nominal Size	Length	Width	Ridge Height	Vents	Growing Area
Orion 3800	6' x 6'	1.95m (6'5")	1.93m (6'4")	2.30m (7'6")		3.8m ² (41ft ²)
Orion 5000	6' x 8'	2.57m (8'5")	1.93m (6'4")	2.30m (7'6")		5.0m ² (54ft ²)

Greenhouse base (optional accessory)

It is essential that every greenhouse is built on a firm and level base. Vitavia prefabricated steel bases are available as an accessory for all Vitavia models. Matching coloured bases are available for painted greenhouses. Using a Vitavia base will add an extra 12.5cm (5") to the height of the greenhouse.

Greenhouse Accessories*

A wide range of useful and labour saving accessories are included in the Vitavia Range. Shelving and staging help make the most of the space within a greenhouse. Folding units are available, if you want to grow taller plants. Extra roof vents and louvre side windows are also available together with automatic openers that allow vents and louvre windows to open and close according to temperature and down pipes can be fitted for the collection of rainwater.

Controlling the greenhouse temperature

Vitavia offers a range of equipment for measuring the temperature and humidity of the air to enable the gardener to obtain optimum conditions for growing plants. (Cucumbers require a soil temperature of 18°C in order to absorb water and nutrients; for tomatoes it's 16°C)

**For full details of all the products in the Accessory Range, see the separate Vitavia information leaflet.*

Glazing options**

Vitavia greenhouses are available with three glazing options :-

Horticultural Glass : the traditional glazing option.

Toughened, Safety Glass : no sharp edges; ideal when young children are around.

Twin - wall Polycarbonate : retains heat, diffuses sunlight and reduces risk of scorch. Safe and virtually unbreakable.

*** Subject to availability. Please check with your local distributor*
