DEAR BBQ FRIENDS,

Welcome to the 2022 Napoleon® Main Catalogue.

Recent times have been far from easy. Neither for you, our valued customers, nor for our dedicated Napoleon dealers. It wasn't easy for us as a manufacturer either: Production backlogs and global logistical problems all contributed to this exceptional situation.

We were pleased that the demand for our products has been greater than ever before but saddened that we were not able to meet every customer request on time. We would like to sincerely apologise to our dealers and customers on behalf of Napoleon and the Schroeter family. We assure you that we have done everything possible to avoid this situation - not least by hiring 290 new employees at our plant in Canada and our European team have never been busier!

Now it is time to look ahead and welcome the year 2022 full of optimism and there are good reasons for the positive mood:

Aside from our dedicated UK distribution centre we have now been able to move into our brand-new European headquarters and distribution centre in the beautiful city of Tiel - in the heart of the Netherlands. Over 20,000 square metres of storage space, state-of-the-art logistics, training facilities, a grill school and a large showroom give us a level of professionalism that we have never had before. The new location also has a positive effect on the motivation of our employees - a fact that should not be underestimated.

Regarding our products, we will continue in 2022 where we successfully started last year. The launch of the Special Edition, Phantom™, have been so successful that these products will also play a major role this year. The completely matt black

versions of Rogue® SE 425 and Prestige® 500 have become bestsellers. Features such as the cast stainless steel grill grate of the Phantom™ Prestige® 500 are causing waves of enthusiasm among our customers, we are really proud of that!

For 2022 we will add the eye-catching Phantom™ TravelQ™ PRO285X and some exciting new accessories that will enhance your barbecuing experience.

We are also really excited to launch the all-new Freestyle series for 2022, this range of four beautifully designed grills are loaded with features that you will expect from Napoleon® at price points that you will find particularly attractive.

We hope you enjoy perusing the Napoleon® brochure for 2022 and you find new barbecue inspirations that you, your family and your friends will enjoy with ambitious dishes but also bring even more pleasure to simple culinary delights.

All the best
Your Napoleon® Team Europe

COMPANY HISTORY

MADE IN CANADA

The story of our BBQs began in 1976 when a small steel fabrication business launched by Wolfgang Schroeter started manufacturing steel railings in Barrie, Ontario, Canada. At that time, no one could imagine the incredible future that lay ahead for Wolf Steel Ltd and the Napoleon® stoves and BBQs that would follow.

**GLOBALLY
RENEWED
QUALITY.**

PASSION FOR FIRE

Napoleon® is an ISO 9001:2000 certified company in Canada with more than 150,000 square metres of manufacturing space and over 1,600 associates. We are North America's largest privately owned manufacturer of quality wood and gas fireplaces and stoves, gas and charcoal BBQs, as well as outdoor living products. The rapid expansion of Napoleon® is a direct result of our uncompromising manufacturing quality, innovation and honest, reliable customer service.

The biggest factor contributing to our success is that the customer is at the heart of all our products. At Napoleon®, we are satisfied when users are impressed not just by the grills themselves but by the meals they prepare on them and the associated experience.

What could be better than sharing delicious BBQ recipes and precious time with friends and family?

UP TO
800°C

HOT, HOTTER, SIZZLE ZONE™

Using charcoal is the traditional form of infrared grilling that we're all familiar with: glowing briquettes emit direct heat through infrared energy into the food being grilled, giving that mouthwatering smoky aroma and delicious crust.

With the SIZZLE ZONE™ infrared burners from Napoleon®, you get these benefits plus convenient gas technology: each burner contains thousands of gas outlets that heat the ceramic surface until it starts to glow red. The resulting infrared rays don't just warm the ambient air; the heat penetrates directly and deeply into the food. It also creates a consistent thermal area that compared with a charcoal fire, is much easier to control.

Napoleon® infrared burners produce extremely high temperatures, making them ideal for the preparation of juicy steaks, burgers and other meats. The SIZZLE ZONE™ can also be used as a side burner, and combined with a ceramic heat plate provides the perfect way to prepare delicious stir fries in a wok.

HEAT, EVENLY DISTRIBUTED

The dual-level sear plates allow for consistent circulation of heat to the cooking grids, preventing the occurrence of „hotspots“.

It's not just the staggered height of the plates that makes them effective; it's also their rising position from back to front, which allows naturally hotter air at the back to move to the front where it's cooler.

What's more, the self-cleaning plates reduce gas flame flare-ups because they channel any dripping fat or juices away from the flames, making barbecuing safer and giving your food a better, more intense flavour.

For further explanation, see the images below.

The upper sear plates circulate the hot air from the burners so that the area between burners gets hot enough as well.

The slightly rising position of the sear plates allows naturally hotter air at the back to move to the front and balance out the difference in temperature.

JETFIRE™ – AN ENLIGHTENED IDEA

Igniting a Napoleon® gas burner is made easy by Napoleon's unique innovative JETFIRE™ ignition system which ignites each individual burner with a strong burst of flame from a separate gas outlet. This allows for the burners to ignite even in extreme weather – the dreaded click of a failed Piezo ignition is a thing of the past.

This innovative technology is only used in this way in Napoleon® BBQs.

ON THE SAME WAVELENGTH

The unique shape of the WAVE™ cooking grids gives food an attractive sear pattern that can only be found with a Napoleon® BBQ. But the wave shape doesn't just give your food an appetising appearance, it also has practical benefits: the wavy cooking grid promotes more evenly distributed heat and also makes it much harder for small bits of food to fall through. Once again, it is the small details that make a Napoleon® BBQ a Napoleon® BBQ.

WAVE™ cast iron cooking grids

WAVE™ stainless steel cooking grids

WAVE™ cast stainless steel cooking grids

STANDARD FEATURES

Both the JETFIRE™ ignition system and the WAVE™ cooking grids come as standard with all our gas BBQs. The dual-level sear plates are also standard with all gas BBQs except the TravelQ™ and Freestyle series.

PHANTOM
SERIES GAS BBQS

PHANTOM

MORE THAN A LOOK

THE PHANTOM® SERIES

The Napoleon® Phantom Edition refines three grill models in a particularly striking way: The new Phantom™ TravelQ™ PRO285X, the Phantom™ Rogue® SE425 and the Phantom™ Prestige® 500 come in a completely matt black finish. Certainly a head-turner!

The Phantom™ Rogue® SE425 and the Phantom™ Prestige® 500 come with a multi functional grilling rack which combines several accessories in one, is super fun and easy to clean. The Phantom™ TravelQ™ PRO285X comes with a stainless steel warming rack which further enhances the cooking area.

Another highlight on the Phantom Prestige 500 are the cast stainless steel grids in both the main grill area and on the SIZZLE ZONE™ side burner. High-quality stainless steel as a solid cast grate; an absolute sensation novelty at Napoleon®. But the Phantom Rogue® SE425 also receives an attractive upgrade: in addition to the main grill area, the SIZZLE ZONE™ also has a solid stainless steel cooking grid.

FREESTYLE

SERIES GAS BBQS

**START YOUR
NAPOLEON® JOURNEY HERE**

THE FREESTYLE™ SERIES

Whether it's summer or winter or any time in between: Your FREESTYLE knows neither season nor culinary boundaries. A classic barbecue evening with good friends and juicy steaks? Of course! But why not a rustic breakfast with an omelette on the griddle? A tasty snack between meals - maybe dates wrapped in bacon? And desserts are also possible. Whatever you want to prepare on your FREESTYLE, only you can decide!

Not a must-have, but always a good decision for your personal barbecue freedom: the SIZZLE ZONE™. The infrared side burner refines your grilling experience at an ultra-hot 800 degrees - in combination with indirect grilling, the use of a charcoal tray, a smoker box or a rotisserie kit, simply ingenious. As you can see, from now on there are no limits to your imagination on the barbecue.

From professional grill gloves made of genuine leather to a cedar wood smoking board - there are so many ways to make your free time at the barbecue even more creative and comfortable.

SERIES GAS BBQS

**THE ROGUE® WAY
IS THE RIGHT WAY
TO BARBECUE.**

THE ROGUE® SERIES

The Rogue® series combines innovative features, comprehensive functionality and modern black design! The high quality Rogue® gas grills offer a wide range of different sizes and features - from the compact Rogue® 365 with two main burners up to the Rogue® 525 with four main burners.

Quality and innovative features are very important in the Rogue® series. All models feature an aluminium die-cast tub for easy cleaning and the patented Napoleon® sear plate system ensures an even temperature distribution across the whole cooking area. Also, all Rogue® grills come with stainless steel burners, reliable JETFIRE™ ignition system, ACCU-PROBE™ lid temperature gauge and a front accessible drip pan.

All grills in the Rogue® series have one thing in common: an excellent price-performance ratio.

The Rogue® 365, 425, and 525 are no exception and due to their black finish, are especially easy to clean.

HOT UPGRADE FOR YOUR BBQ.

THE ROGUE® XT-MODELS WITH SIZZLE ZONE™

The Rogue® XT models are as well equipped as all other Rogue® models, but feature the almost legendary Napoleon® SIZZLE ZONE™ - the infrared side burner, that perfectly grills steaks with over 800°C.

The Rogue® XT is available in 4 sizes from the XT365 with 2 main burners up to the XT625 with 5 main burners. All models come with the extra high lid to accommodate larger joints of meat.

The XT series comes with porcelain coated cast iron cooking grids.

**ALL YOU NEED:
ROGUE®
SPECIAL EDITION.**

THE ROGUE® SPECIAL EDITION WITH INFRARED SIDE AND REAR BURNER

The Special Edition of the Rogue® series, designated SE, even tops the SIZZLE ZONE™ equipped XT models. The three SE models not only feature a larger 3 tiled infrared side burner, but also an infrared rear burner.

This, in conjunction with the higher lid, ensures that the BBQs become true rotisserie champions. Whole chicken or suckling pig: a perfect grilling result is guaranteed.

And there's more. The three SE models also feature LED illuminated control knobs for late night entertaining and a handy bottle opener.

LIFT EASE™

Roll top lid

With 10 burners

Up to 38.6 kW

Built In Grill Head available
for Oasis™ outdoor kitchens.

Prestige PRO™ 825-3

- 1 Double grill head; one with two internal **SIZZLE ZONE™** infrared burners and a stainless steel tube burner to allow better distribution of heat. Can also be used to keep food warm.
- 2 **WAVE™** 9.5mm stainless steel cooking grids
- 3 Stylish, high and space-saving **LIFT EASE™** roll top lid with gleaming chrome accents and **ACCU-PROBE™** built-in temperature gauge
- 4 Up to 38.6kW with 10 burners; 4 main burners, 2 infrared burners with warming burner, smoker burner, rear burner and side burner.
- 5 Premium stainless steel side shelves with integrated drinks holder and ice/marinade bucket with cutting board, chrome towel holder and utensil hooks and utensil hooks
- 6 Stainless steel control panel with **JETFIRE™** ignition system
- 7 **SAFETY GLOW™** control knobs and interior lights for stylish barbecuing into the night
- 8 Large drip pan accessible from the front
- 9 Available as a propane gas model only
- 10 Behind the soft-closing doors, you will find shelves, lighting, utensil hooks and a bottle opener

- 11 Two large rubberized easy-run wheels
- 12 Integrated **wood chip smoker** tray pulls out for easy filling and has its own dedicated burner
- 13 **Innovative two-stage power burner** with two levels of intensity: one round, central infrared burner and an outer burner allow for diverse barbecuing methods. The reversible cast iron cooking grid provides one side suitable for a round wok, while the other side can be used for flat griddles and pans. Its shape ensures consistent barbecuing results.
- 14 Proximity lighting
- 15 The LED Spectrum **NIGHT LIGHT™** Control Knobs can change colour and brightness
- 16 Proximity lighting
- 17 Rotisserie kit included

- 9 Stable hooks for hanging BBQ utensils and towels
- 10 Large wheels for easy manoeuvrability and stable scissor-cart frame made of powder-coated steel

**ELECTRIC POWER FOR
A REAL BBQ TREAT.**

THE COMPACT ELECTRIC BBQ

Capacity to cook for up to
9 people

The new TravelQ PRO285E underlines the fact that the days when electric barbecues were deemed to be under-performing are over. With its powerful 2,200 watts, the specially insulated lid and the enamelled grill tub up to 300°C are achieved on the grid - enough heat to provide grilled food with delicious sear marks. The electric TravelQ represents a real enrichment for every balcony or provides areas of application where gas / charcoal is not possible for unadulterated barbecue fun. The simple cleaning also contributes to this: the heating spiral and the enamelled tub insulation insert can be easily removed.

TravelQ PRO285E

- 1 Ultra-compact design for easy handling and comfort
- 2 Removable heating coil and grill pan insulator insert for easy cleaning
- 3 **ACCU-PROBE™** built-in temperature gauge
- 4 Durable, high **WEATHERGUARD™** lid in cast aluminium, able to accommodate larger joints e.g. a whole chicken
- 5 Porcelain coated cast iron **WAVE™** cooking grids
- 6 Side handles for easy lifting
- 7 Sideways accessible grease drip tray

TravelQ PRO285-Stand

- 8 **Optional stand module**
(also suitable for TravelQ PRO285)
- 9 With removable side shelves
- 10 Stainless steel condiment holder with integrated bottle opener
- 11 Sturdy hooks to hang BBQ tools and other accessories
- 12 Elegant front panel conceals the propane bottle

The **TravelQ PRO285** stand is a perfect accessory for the PRO 285 E

A black and silver Napoleon charcoal grill is mounted on a black metal cart with a single large blue wheel. The grill is positioned in a garden area with a stone wall and a window in the background. To the left, there are various green plants and a potted plant. To the right, there is a bag of Napoleon Black & Blue charcoal, a stack of blue plates, and some yellow flowers. The scene is brightly lit, suggesting a sunny day.

**THE BEGINNINGS
OF THE BBQ.**
