

Neptune (Merkur)

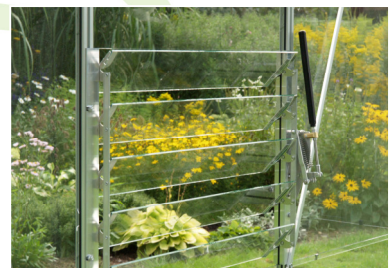

Neptune (Merkur) 6700 with 6mm polycarbonate

Strong corner plates and supports

Strong braces at the roof and eaves

Optional louvre window

A quality greenhouse, where attention has been focussed on the strength of the construction. Corner plates at both eaves and ridge, together with roof and side braces, give the building improved strength.

The Neptune (Merkur) is 2.57m (8'5") wide with a single sliding door and a lever mechanism to hold it in any desired position. Available in 4 sizes, the Neptune (Merkur) has higher eaves (1.35m/4'5") than usually associated with this type of greenhouse. All Neptune (Merkur) models have two roof vents fitted as standard and they also have the Vitavia standard gutters. All Neptune (Merkur) models have been approved by the TÜV Standards Authority.

Like all VITAVIA greenhouses, the Neptune (Merkur) is constructed from anodised aluminium, ensuring clean handling and a pristine finish. Frames are available in natural silver colour or powder-coated green, and come with full illustrated Assembly Instructions.

TÜV International is recognized worldwide as a qualified product safety testing and quality certification organization. In order to obtain TÜV approval, products must meet TÜV's high quality standards. In relation to greenhouses, this includes testing against wind and snow loading, quality and safety of construction and also the ease of assembly by reference to clear and uncomplicated Assembly Instructions.

Specifications

Model	Nominal Size	Length	Width	Eaves Height	Ridge Height	Vents	Growing Area
Neptune 6700 (Merkur)	8' x 8'	2.58m (8'6")	2.57m (8'5")	1.35m (4'5")	2.30m (7'7")	2	6.7m ² (72ft ²)
Neptune 8300 (Merkur)	8' x 10'	3.21m (10'6")	2.57m (8'5")	1.35m (4'5")	2.30m (7'7")	2	8.3m ² (89ft ²)
Neptune 9900 (Merkur)	8' x 12'	3.83m (12'7")	2.57m (8'5")	1.35m (4'5")	2.30m (7'7")	2	9.9m ² (107ft ²)
Neptune 11500 (Merkur)	8' x 14'	4.45m (14'7")	2.57m (8'5")	1.35m (4'5")	2.30m (7'7")	2	11.5m ² (124ft ²)

Greenhouse base [optional accessory]

It is essential that every greenhouse is built on a firm and level base. Vitavia prefabricated steel bases are available as an accessory for all Vitavia models. Matching coloured bases are available for painted greenhouses. Using a Vitavia base will add an extra 12.5cm (5") to the height of the greenhouse.

Greenhouse Accessories*

A wide range of useful and labour saving accessories are included in the Vitavia Range. Shelving and staging help make the most of the space within a greenhouse. Folding units are available, if you want to grow taller plants. Extra roof vents and louvre side windows are also available together with automatic openers that allow vents and louvre windows to open and close according to temperature and down pipes can be fitted for the collection of rainwater.

Controlling the greenhouse temperature

Vitavia offers a range of equipment for measuring the temperature and humidity of the air to enable the gardener to obtain optimum conditions for growing plants. (Cucumbers require a soil temperature of 18°C in order to absorb water and nutrients; for tomatoes it's 16°C)

**For full details of all the products in the Accessory Range, see the separate Vitavia information leaflet.*

Glazing options**

Vitavia greenhouses are available with three glazing options :-

Horticultural Glass : the traditional glazing option.

Toughened, Safety Glass : no sharp edges; ideal when young children are around.

Twin - wall Polycarbonate : retains heat, diffuses sunlight and reduces risk of scorch. Safe and virtually unbreakable.

*** Subject to availability. Please check with your local distributor*
