

Whitby Arch

IMPORTANT, RETAIN FOR FUTURE REFERENCE: READ CAREFULLY.

Check all parts are present prior to assembly.

- 1) The timber in this product is pressure treated to ensure longevity and protection against rot. This may leave colour variations, but these will even out as the moisture content stabilises.
- 2) Timber is a natural material and will shrink and swell as a result of varying moisture content.
- 3) Keep all plastic bags and parts away from children.
- 4) Regularly check the fixings are tight and secure.

In line with your statutory rights, please check all parts prior to assembly, as assembly of damaged parts may be deemed to be acceptance this may affect the remedies you are entitled to. The manufacturer does not accept any liability for injury or damage to property caused by this product not being constructed in accordance with our instructions or being altered in any way.

Attention:

- For Domestic Use Only.
- This product is not intended for use by children

Issue 0122

Place the Drive Nuts into the holes on the inside of the arcs as shown. Hammer each in place.

Use a rubber mallet to make sure the assemblies are tight.

If a wooden mallet is not available use a wide piece of wood to protect the product when hammering.

Place the two arc assemblies together so the notches are tight.

Fix these together using a single 40mm Screw through the centre hole.

Turn the assembly over and repeat.

Slot the leg assemblies into the arcs so that the notches sit tight and flush. Fix them together using the Allen Screws.

Using the pre-drilled holes provided tighten up each of the assemblies using 70mm Screws.
